

Eraky Stud Service Policy

We offer Ch Eraky The Opener "Langer" and Ch Tapeatom Headliner (Imp Can) "Leo" at stud. Natural matings, fresh chilled semen and frozen semen are available.

Payment for the stud service is due at the time of mating or at the time of semen collection for an artificial insemination. Once payment has been received we will provide a signed service certificate and copies of all relevant health clearances.

The stud fee covers two natural matings (tie or slip) generally performed 48 hours apart. It is the responsibility of the bitch owner to ensure the bitch is ready for mating, as the stud fee includes up to 4 days of boarding. If a bitch is required to stay more than 4 days a boarding fee will be charged.

The stud fee is not refundable however if the bitch fails to fall pregnant or has only one live puppy a free return mating is offered. The return mating will be for the same stud dog however the bitch may be substituted upon prior agreement by both ourselves and the bitch's owner.

Advance notice of a potential mating is recommended however we will try to accommodate urgent requests where prior notice has not been given. We require copies of the bitch's pedigree and relevant health clearances.
